

School fees 2022:

We are giving parents fair warning that we are doing a very small increase of 5% in 2022, this is due to an increase in stationary prices, workbooks and many other things that go into running our school.

Grade R : Due to Grade R being a formal schooling year, we need a fully degreed teacher in the Grade as well as workbooks and other resources. For this reason, we have had to increase the Grade R amount slightly, to cover these expenses.

Grade 7: Due to an extra teacher needed for specialized subjects in this Grade as well as extra expenses to make the Grade 7 year, a year of quality learning and memorable experiences, we have had to increase the Grade 7 amount slightly, to cover these expenses.

You will also notice that we have added tissues and toilet paper into the “other related fees” and will not be asking for tissues and toilet paper through the year as this will be covered.

At Kammaland Primary School we try our best to keep fees as low as possible while still providing top quality education. If we did not put our fees up to meet increases in other areas of the economy, we would not be able to provide the education to the standard that we promise you, the parents. We still remain one of the most reasonably priced Private schools in the area for the standard we are giving. Thank you for your continuous support.

Grade	1st child per month	Per Year	2nd & third child per month	Per Year
